ELEVENTH ANNUAL REPORT

STATE INSPECTOR OF PUBLIC HIGH SCHOOLS

OF

NORTH CAROLINA

FOR THE

SCHOLASTIC YEAR ENDING JUNE 30, 1918

INCLUDING

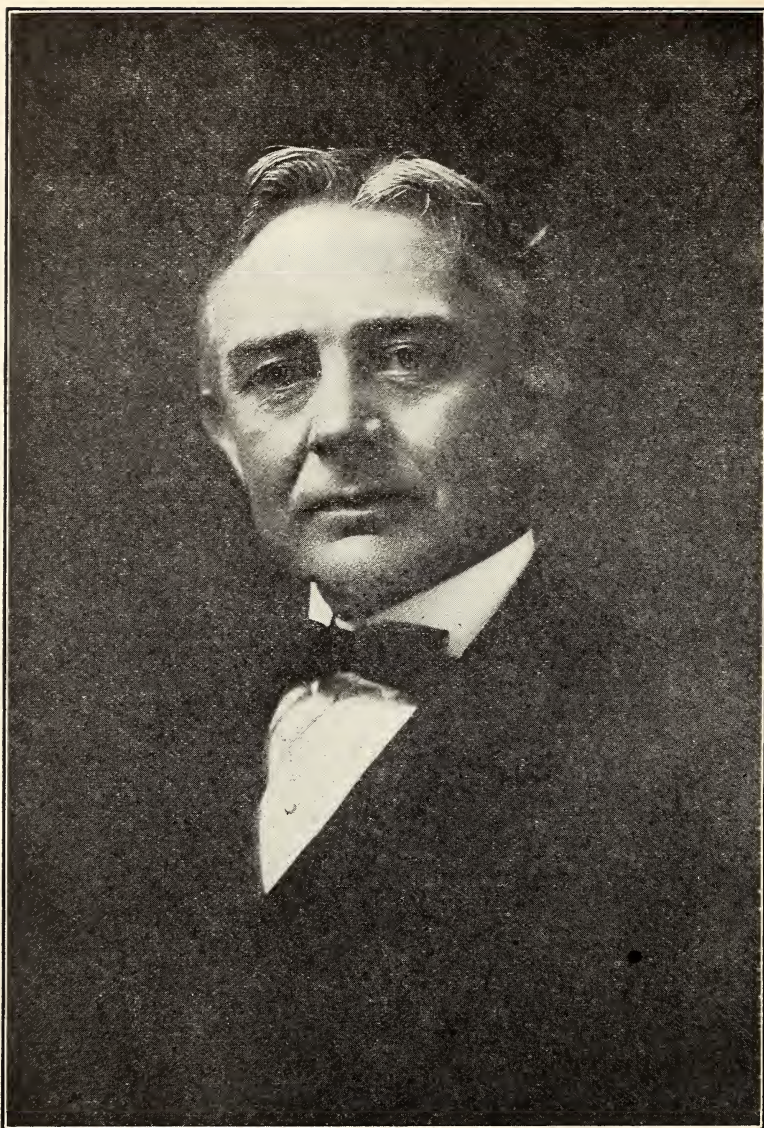

A REPORT OF THE TOWN AND CITY HIGH SCHOOLS

BY

N. W. WALKER

PROFESSOR OF SECONDARY EDUCATION IN THE UNIVERSITY OF NORTH CAROLINA
AND STATE INSPECTOR OF PUBLIC HIGH SCHOOLS

OFFICE OF THE
STATE SUPERINTENDENT OF PUBLIC INSTRUCTION
RALEIGH, N. C.

DR. JAMES YADKIN JOYNER

Dr. Joyner served as State Superintendent of Public Instruction of North Carolina from February, 1902, to January 1, 1919, when he resigned from office and voluntarily retired to private life. During his administration, he made, to quote the words of Governor Bickett, "a noble and imperishable contribution to the intellectual and moral life of the State." Among his significant contributions to educational progress in North Carolina, must be counted the establishment of the country high school as an organic part of our public school system. Perhaps, no one thing he did was more far-reaching in its importance or has contributed more to the State's recent educational development. In 1907, he secured the passage of our first public high school law, under which high school facilities have been made available to the boys and girls of the country districts in every county in North Carolina; in 1917, our Supreme Court went on record with one of the most progressive and forward-looking decisions affecting public high schools yet handed down by the Supreme Court of any State in this country; and under his wise leadership the public high school has come to occupy its legitimate place not only in our public school system but in the hopes and the affections of our people as well.

LETTER OF TRANSMITTAL

CHAPEL HILL, N. C., December 30, 1918.

HONORABLE J. Y. JOYNER,

State Superintendent of Public Instruction,

Raleigh, N. C.

DEAR SIR:—I have the honor to submit herewith my eleventh Annual Report of the Public High Schools of North Carolina for the school year ending June 30, 1918.

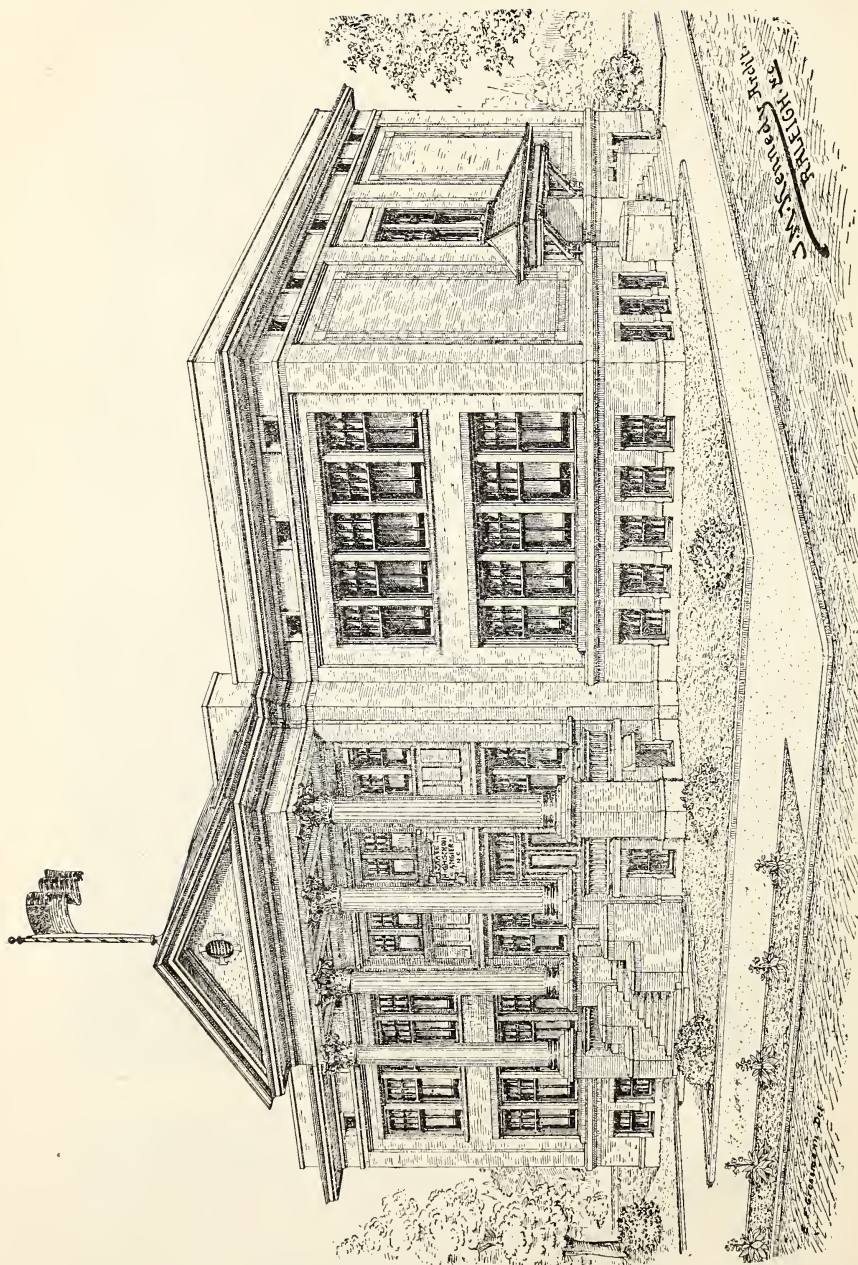

Part I of this report deals with the "State" high schools—that is, the public high schools receiving special state aid; Part II deals with the "City" and "Local" high schools; in Part III will be found consolidated summaries of statistics for all public high schools that reported to your office, the current list of "Accredited Schools," a list of the graduates for 1918 of all four-year high schools that reported, and the list of the apportionments for the year 1918-19.

This is the last high school report I shall have the honor of addressing to you, now that you have tendered to the Governor your resignation as State Superintendent of Public Instruction, to take effect January 1, 1919. I feel that I should be lacking in gratitude if I did not take this occasion to express to you the deep sense of personal obligation I feel for your constant coöperation with me in my work as Inspector of High Schools, and for the sympathetic encouragement and never-failing assistance you have given me in ways and instances too numerous to be recorded here. Through your abiding interest in promoting high school development, your understanding and appreciation of the many problems and factors involved in stimulating and directing this development along intelligent lines, and your sympathetic leadership, you have indeed made my work a labor of love during the years it has been my privilege to be associated with you. My hope is that the high school as an organic part of our public school system may, in the years to come, completely justify your faith in it as an effective agency for the promotion of human happiness, prosperity, and progress, by living up more nearly to its possibilities and by functioning in a fuller measure and in a more effective way than it has been possible for it to do during the pioneer stage of its development under your administration.

Respectfully submitted,

N. W. WALKER,

State Inspector of High Schools.

Most progressive communities provide good school buildings that are in keeping with modern ideas of school architecture and that will not suffer by comparison with the best homes of such communities. Poverty of civic spirit is quite frequently a greater bar to school progress than is the community's lack of financial ability.

FOREWORD

The time has come when the public high schools should be made an organic part of each county school system, provided for by state and county taxation, as are the elementary public schools, without restriction upon the number in each county except the restriction of the needs and the ability to support them. It will be observed that under the six-months school bill recommended by me, if enacted into law by this General Assembly, the same provision is made for the maintenance of the high schools by state and county taxation as an organic part of the state and county school system as is made for the maintenance of the elementary public schools for six months. The districts maintaining high schools should be required to supplement these funds by local taxation or private subscription, or otherwise, by an amount at least equal to the amount apportioned to the high school by the state, and at least sufficient to extend the high school term two or three months. The present high school law should be revised so as to set up proper standards for high schools and place necessary restrictions for the maintenance of these standards and for the proper supervision of all high schools.—From the Biennial Recommendations of Superintendent J. Y. JOYNER, December, 1918.

During the year covered by this report, the high schools, of course, suffered heavily because of war conditions, as did all other institutions. Many of their best male principals and teachers were called in the draft for military service, and substitutes had to be provided who, in a great many cases, were not nearly so well prepared for high school teaching. On account of this, it was not humanly possible to keep the class work up to the academic standards of normal times. The big fact of war was one that the high schools, like everything else, had to accept and make the best of it they could. They accepted it in a patriotic spirit, and the response they made to the Nation's needs and the Government's appeals was sufficient to give the counties in which they were located a new birth of patriotism. No appeal that the Nation made to or through the high schools of North Carolina was made in vain. Every appeal met with a hearty, enthusiastic, and patriotic response. This fact must not and cannot be overlooked by our citizenship now that we are face to face with problems of reconstruction, readaptation, and readjustment, the proper solution of which must depend upon the response we now make to the financial need of the high schools. I think the fact that even under the stress and strain of war, both the enrollment and the attendance in the high schools of the State kept up the normal rate of increase, is one in which we should take pride and find encouragement. The enrollment in the State high schools increased 16.4 per cent, and the attendance, 16.3 per cent over the preceding year.

One other matter I should call attention to in this connection: In October, 1917, it was decided that State diplomas would be issued to graduates of standard four-year high schools, beginning in 1918. On account of the general conditions that the war brought about, which tended toward demoralization in so many schools, it was decided not to issue these diplomas in 1918, but to wait until the return of normal conditions under which good standards of work should be maintained. It now seems that it will be wise further to postpone the awarding of State diplomas for another year, or until 1920.

INCREASED SUPPORT FOR HIGH SCHOOLS NECESSARY

The question of providing increased support for the public high schools must be viewed in its relation to the two sharply defined policies of financing the entire public school system which the Legislature will be called upon to consider: the present policy, and that proposed in the paragraph quoted above from Dr. Joyner's recommendations. In case the Legislature decides to continue the present policy, then a greatly increased State appropriation for high schools will be necessary; if, on the other hand, it should decide to abandon the present policy and base the school revenue act upon the principle proposed above, then the high school will become in fact an organic part of the public school system, and as such will receive greatly increased support from both county and State. In this case, no special State appropriation for public high schools will be necessary, if provision is made to prevent the dissipation of resources and energies under the plan proposed. How the necessary increase in financial support for public high schools shall be provided will depend, then, entirely upon the general policy that the Legislature adopts regarding the raising and distribution of school revenue in general. Let us look for a moment at the two general policies under consideration.

Our present plan does not provide for a large State school fund to be paid into the State Treasury and distributed from there to the various counties. The revenue derived from the general State school tax of 20 cents on the \$100 of property valuation is retained in the various counties. The State aids the counties out of the State treasury in the following ways: (1) By an annual appropriation of \$250,000 to be distributed among all the counties upon the basis of school population; (2) by setting aside 5 cents of the annual *ad valorem* tax levied and collected for State purposes on every \$100 of property valuation (yielding now about \$465,000); (3) by a special annual appropriation of \$100,000 for public high schools.

Under the general plan advocated since the passage of the constitutional amendment, it is proposed to create a State school fund sufficient to run all the public schools for three months, and to require the counties to levy a special county-wide tax sufficient to run them another three months, thus meeting the constitutional requirement of a six-months school term. If the school revenue act is based upon this principle, all the general school tax now levied, together with the present equalizing fund, the \$250,000 per capita appropriation, and the \$100,000 appropriation for high schools will go into the State Treasury as a State school fund—which will be as large as can be raised under the constitutional limitation of 66 $\frac{2}{3}$ cents (on the \$100 of property valuation) for general State and county purposes. The rate of State taxation, therefore, for school purposes will be at least 30 cents; it may be as much as 32 cents. After this constitutional limitation has been reached, any tax that the Legislature may require the counties to levy will be levied as a *special* county tax and will not be subject to the constitutional limitation mentioned above. This fact constitutes really the strongest argument for the proposed change of policy: it puts every county in the State under a *special* county-wide tax, thus almost doubling over school revenues, and it unifies and consolidates all our public school work—elementary and secondary.

Now, since the public high schools have been declared by the Supreme Court to be an organic part of the public school system contemplated in the Constitution, provision must be made to support them for at least six months

from State and county funds, leaving the revenue derived from special local taxes for extending the term another three months, for paying larger salaries, for building purposes, etc. This provision will apply to all public high schools (State, city, and local) fulfilling the requirements of the law.

With the provision that no salaries shall be decreased under the operations of the proposed plan, and with the further provision that the State Superintendent of Public Instruction be authorized to formulate rules and regulations providing for the payment of high school teachers' salaries on a lower attendance basis than is likely to be possible in the case of the elementary schools, the public high schools of all classes will be sufficiently safeguarded and the amount of money available for high school instruction from State and county funds will be multiplied several times over. The second plan, therefore, with the two necessary safeguards mentioned above, will operate to put the high school work on a substantial financial basis, and it will unify all our school work—elementary and secondary—in a more effective way than can ever be possible under the present policy.

SUGGESTIONS AND RECOMMENDATIONS

1. In my judgment, it will be well to consider carefully the advisability of reorganizing elementary and secondary school work on the 6-3-3 plan, so as to provide for Junior High Schools (grades 7-8-9) and Senior High Schools (10-11-12). The reorganization can be effected under either of the proposed financial policies. But if the present policy is continued, a greatly increased State appropriation will be necessary in order to take care of the seventh grade work, which will fall in the Junior High School, and further increase will be necessary to take care of the twelfth grade work, which should be added to our present course. This whole matter, beyond the question of providing the necessary financial support, is not primarily a matter of legislation, since it can be worked out and put into effect by the State Department of Education under the existing laws. I am convinced that the reorganization of our high school work on the 6-3-3 plan, so that the courses of instruction in the Junior High Schools could be better adapted to the needs of the pupils of the 7th, 8th, and 9th grades, and the courses of instruction in the Senior High Schools could be intensified and otherwise strengthened, would greatly improve our high schools by increasing their efficiency in many ways. I need not go into a further discussion of the problem at this point.

2. The limit in the number of high schools of both Junior and Senior grade that a county may establish should not be limited to four as at present: it should depend, rather, upon the needs of each county for high school facilities, the willingness and the ability of the county and the local districts to support such schools, and to meet the State's requirements as to attendance, length of term, and necessary facilities. If the present financial policy is continued, an increase in the State high school appropriation ought to be secured, if possible, in order that more high schools can be aided in places badly in need of high school facilities. If the second plan is adopted, the financial problem will take care of itself in so far as State revenues are concerned.

3. The buildings and equipments of Senior High Schools ought to be standardized, on the basis of modern principles of school architecture; and definite requirements should be set up regarding (1) laboratory equipment, (2) library facilities, and (3) the keeping of full and accurate records.

4. Provision should be made for erecting dormitories and teachers' homes in connection with Senior High Schools, and for transporting pupils where this is desirable and feasible.

5. Provision should be made for establishing negro high schools. This problem will take care of itself if the proposed policy is put into effect. If the present policy is continued, the appropriation will have to be increased, and the limit in the number of schools a county may establish will have to be increased.

6. The machinery of administering the high school work should be further simplified.

7. If the present financial apportionment is continued, the maximum apportionment to public high schools should be increased from \$600 to \$1,200 in order that, by requiring a like amount for both the county and the local district, it may be possible for developing schools that are now financially cramped to continue their development; that they may be enabled to hold the stronger high school principals in service by paying them living salaries. If this is not done, the high schools will be sure to lose many of their best teachers who can command better wages in some other calling.

8. The annual State appropriation ought to be increased from \$100,000 to \$250,000 if the present policy is continued. If the proposed policy is adopted, no special State appropriation to high schools will be necessary.

REPORT OF THE STATE INSPECTOR OF PUBLIC HIGH SCHOOLS, 1917-1918

PART ONE—STATE HIGH SCHOOLS

SUMMARY OF THE YEAR'S PROGRESS*

Number, Classification, and Distribution of Schools.—During the scholastic year covered by this report, 1917-1918, there were 246 public high schools in operation receiving State aid. Three schools were discontinued and thirty-six new schools established, making a net increase of thirty-three over the preceding year. The number of schools reporting four-year courses increased from 128 to 161; the number reporting three-year courses increased from 65 to 68; and the number reporting two-year courses decreased from 20 to 17. There were only three counties in which no public high schools receiving State aid were in operation, namely, Chowan, Perquimans, and Watauga. (State aid has been granted for high schools in these three counties for the year 1918-19, so that really every county in the State has at least one public high school receiving State aid.)

Enrollment and Attendance.—The enrollment this year increased from 10,986 to 12,788, and the average daily attendance from 8,290 to 9,644. The increase in enrollment over the preceding year was 1,802, or 16.4 per cent, and the increase in daily attendance was 1,354, or 16.3 per cent. The number of students enrolled from outside the local districts increased from 3,664 to 3,790, and the number of boarding students enrolled increased from 2,444 to 2,455.

Teaching Force.—The number of teachers employed increased from 493 to 639, and, as has been the case for the past several years, there was urgent need for more assistant teachers in many of the more prosperous schools. In too many cases inadequate funds made it impossible to meet this need.

Receipts and Expenditures.—The total receipts this year increased from \$275,182.25 to \$366,093.30, and the total expenditures increased from \$266,574.60 to \$351,233.49, making a net increase of \$90,911.05 in receipts and \$84,658.89 in expenditures.

The average salary paid the high school principal was decreased from \$855.63 to \$855.44. There were 83 principals who received \$1,000 or more. The number who received less than \$500 was increased from five to seven. The total expenditures for principals' salaries increased from \$181,448.22 to \$210,439.81. The amount expended for the salaries of assistant teachers was increased from \$73,541.49 to \$118,774.82. The average amount expended per student enrolled was \$27.44; the average cost per student in daily attendance was \$36.38.

*This part of the report pertains only to the State High Schools operated under the Public High School Law of 1907. For a report of the City, and Local High Schools, see Part II of this report.

Length of Term.—The average length of term per school was 31.15 weeks, as against 31.25 weeks for the preceding year. There were 18 schools having a term of 36 weeks, 4 having a term of 34 weeks, 165 having a term of 32 weeks, 1 having a term of 31 weeks, 14 having a term of 30 weeks, 1 having a term of 29 weeks, 38 having a term of 28 weeks, and 5 having a term of less than 28 weeks.

Building Activity.—On account of war conditions building activity came to a stand-still this year. A few places that had previously voted bonds went ahead with the erection of their buildings for school and dormitory purposes. Others voted bonds but postponed the sale of them, and consequently the erection of new buildings, until after the war should end. The following record, though not complete, includes most of the building activity, except for repairs and enlargements, among the State high schools up to December 15, 1918:

<i>County</i>	<i>School</i>	<i>Amount</i>	<i>Remarks</i>
Bertie	Mars Hill	\$ 5,500	Bonds sold.
Beaufort	Pantego	6,000	Spent on dormitory and repairs.
Cleveland	Shelby	18,000	Bonds for additional high school rooms.
Duplin	Calypso	30,000	\$16,000 in bonds and \$14,000 in private subscriptions for new building.
Gaston	Dallas	25,000	Bonds for new building.
Halifax	Enfield	30,000	New building completed.
Harnett	Lillington	5,000	New dormitory completed.
McDowell	Nebo	20,000	Bonds for new building.
Macon	Iotla	4,000	Private subscriptions for dormitory.
Mecklenburg	Paw Creek	20,000	New building completed.
Mitchell	Spruce Pine ..	12,000	New building completed.
Northampton	Seaboard	8,000	New dormitory completed.
Transylvania	Brevard	25,000	Bonds for new building.
Vance	Middleburg ...	10,000	New dormitory completed.

EXTRACTS FROM PRINCIPALS' REPORTS

The following paragraphs taken from the Principals' Annual Reports tell a concise story of the year's progress. The significant achievements of the year are here recorded as the principals have reported them. These brief reports will be found to be full of interest, and many of them rich in suggestion for other principals of schools similar in type and laboring under like conditions.

Alamance County

PRINCIPAL ROSSE L. WALKER, *Stony Creek High School*:

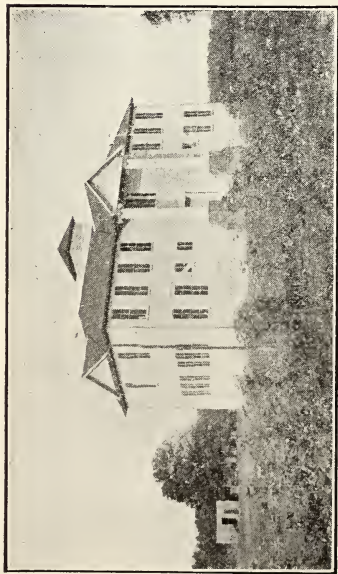

We have had an extra good year at Stony Creek, this being our first year as a State High School. Our attendance has been extra good. We are planning to build a dormitory in the near future. We spent nearly three hundred dollars this year on improvements. Our school purchased over six thousand dollars worth of war savings stamps during the months of February and March. The people of our community are very progressive and will support any movement for the betterment of the community.

Alexander County

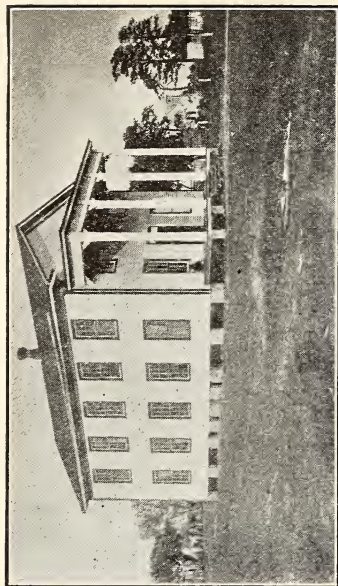

PRINCIPAL HARRY MILLER, *Stony Point High School*:

A very successful year has just been closed, and the prospects for the next school were never more encouraging than at present. The interest of the community has been aroused and the people are standing by the school. This is the first year that there has been an effort to make the school the center of community interest in Stony Point. Just after getting the school work

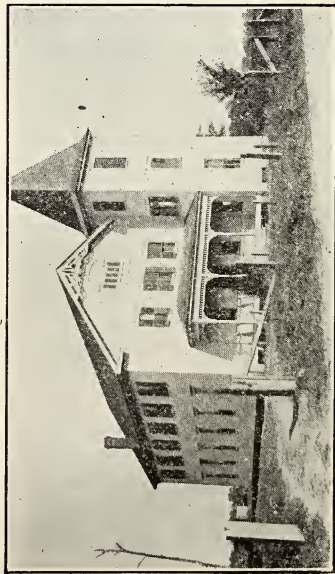

*This is in fact not a true balance since there were many outstanding vouchers at the time the reports were rendered.

under way a community meeting was held, and forty of the ladies organized a Ladies Betterment Association. This association has held fortnightly meetings the whole term and has worked wonders. Formerly no effort had been put forward for material improvements. This year the interior of the building has been painted, a piano placed in the auditorium, teachers' desks purchased for every room, shades bought for all the windows, reading-room fitted up, all at a total cost of three hundred and fifty dollars. Two hundred and twenty-five of this amount was raised through the efforts of the "Ladies Betterment Association." Another thing we hope to see in our school soon is a Domestic Science Department. There is an urgent need for this to meet the demand of our community life.

PRINCIPAL R. C. COX, *Taylorsville State High School*:

There has been a decided growth in school spirit, which has been aroused largely through the work of the literary societies. The work of the pupils in the preliminary debates, also in the triangular debates, was of a high order. There was much interest manifested in the declamation and recitation contests, both in the preliminaries and final. Three students represented the school in college inter-high-school contests. Two out of the three won places on the final program. This was the first year this school has taken part in these contests.

There has been a steady growth of community spirit, and a deeper interest in the welfare of the school which has been promoted by the very active Woman's Betterment Association. A third teacher for two-thirds time was added to the high school department which has strengthened the course very much. The school will be able to graduate the largest and strongest class in its history next year. Music department established. All-time music teacher who gave one day a week to public school music in the grades. Payment on piano completed. Fire-escapes and other improvements to the amount of \$600 for the year.

Alleghany County

PRINCIPAL A. O. JOINES, *Piney Creek High School*:

Fine school spirit is gradually developing in community. The patrons and students are working together for general betterment of schools and education. New school buildings are being constructed, new roads are being built, and new school apparatus are being provided. In a few years we hope to have help of the State in establishing a Farm-life School here for this mountain section. Scarcely could you find an investment that would yield greater returns, and worth to this community would be inestimable. Our special tax will be doubled this year. About ten or twelve new school cottages will be built, school apparatus will be greatly improved, and general improvements made. In fact, all of these improvements are now under construction. The future for this school looks bright and encouraging.

Anson County

PRINCIPAL J. W. MCCOLL, *Lilesville High School*:

We have discarded the old double desk and seated the school building with individual desks at a cost of \$450. Before school opened, September 10th, we bought both the supplementary and original libraries which cost us \$45. We

have done other numerous improvements which will amount to about \$40. The last night of commencement we raised in the auditorium \$436 for the Red Cross.

PRINCIPAL W. J. SLOAN, *Polkton High School*:

Our bond election carried, with three dissenting votes. The building, however, was deferred until this summer for various reasons. We shall erect a \$10,000-building for the assembling of school therein next fall at the opening.

Beaufort County

PRINCIPAL V. W. MCGHEE, *Aurora High School*:

The school has made much progress in doing the things required of schools in war time. School gardens have been cultivated in as many as thirty different lots by the pupils. The school children have purchased \$500 worth of thrift stamps, five Liberty Loan bonds, and have given freely of their savings to the Red Cross chapter. The pupils operate a Junior Red Cross. A four-minute men's club has been organized, and once a month the ten members give a public speaking on the most recent war events. This club has created more interest among the adults than any other factor. The material is new and timely, and care is taken to make it stimulating to the public. As a result of these meetings \$5,000 worth of Liberty Bonds were sold. The Boy Scouts are actively informing themselves of their present-day duties. Teachers and the community at large are proud of their work. There is no loafing among them. The school has run an Employment Bureau for them and has secured a compensating job for each member during the summer.

PRINCIPAL F. PARKER, *Pantego High School*:

Six thousand dollars spent on dormitory; lighting plant installed for dormitory and school building; five-hundred-dollar piano bought for school. Thirteen hundred dollars raised for war savings stamps by children of school.

Bertie County

PRINCIPAL G. H. FERGUSON, *Aulander High School*:

Steam heat installed; dormitory remodeled; library enlarged. Added to the equipment. Liberty Bond given to school.

Bladen County

PRINCIPAL P. L. WHITE, *Abbottsburg High School*:

The school is growing fast and the building is inadequate; hence more room must soon be found to accommodate the children. This is primarily a farming section, and hence the school should begin early in the fall. The people are proud of this high school and do not want to lose State aid.

PRINCIPAL R. D. MARSH, *Bladenboro High School*:

Since the last annual report was made a building has been erected at a cost of over \$30,000. This building is modern and up-to-date in every particular and is regarded as one of the best buildings in the State. The grounds consist of 40 acres of fertile land which will be used in the Farm-life School.

During the year we have had several entertainments, the proceeds of which have gone to purchasing a set of stage curtains. At our commencement exercises we made a small charge on the last night and received a neat sum which will be used as a library fund.

Brunswick County

PRINCIPAL B. F. AMES, JR., *Southport High School*:

We have added an eleventh grade this year. The school children have bought \$30 worth of war savings stamps for the school. An election to raise the city school tax is to be held in May.

Buncombe County

PRINCIPAL E. E. HAWKINS, *Barnardsville High School*:

Our enrollment was large; average attendance, good. We think that we have laid the foundation for a successful year's work during the coming session. Effort will be made to add one or two departments. We added music last year. There had been no music department before. It was successful.

PRINCIPAL R. G. ANDERS, *West Buncombe High School*:

Plans are now being made to add a music department and an agricultural department for next year which will mean a great deal for the school.

Cabarrus County

PRINCIPAL AUGUSTUS SISK, *Rocky River High School*:

The eleventh grade was added this year.

PRINCIPAL R. A. REED, *Wincoff High School*:

Fourth year added; curriculum strengthened to the full standard requirements except for time of recitations. Assistant teacher gave entire time to high school. Laboratory equipment worth \$40 added and laboratory fitted out. Community fair held; supplement to library secured; also bell and dictionary. Debaters went to Chapel Hill for the second time. All boys in service from the community given comfort bags; \$192 worth of thrift stamps bought. Talks every night of commencement on the war; special exercises on North Carolina Day and Washington's Birthday.

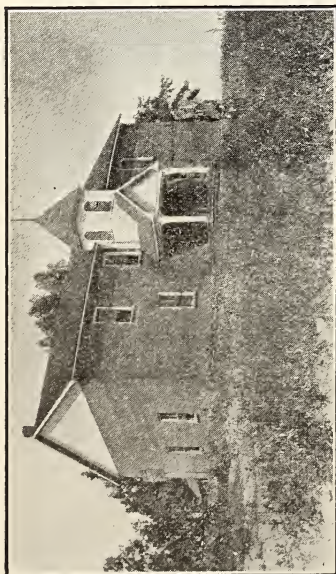

Caldwell County

PRINCIPAL M. B. WOOSLEY, *Granite Falls High School*:

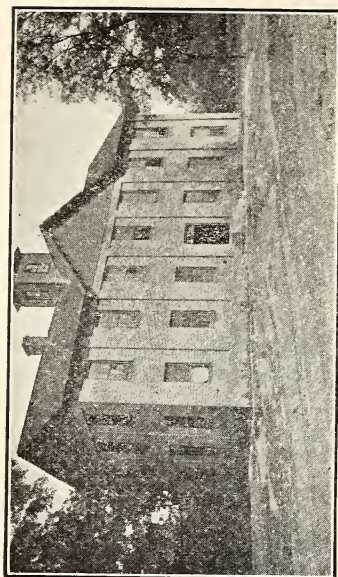

We have added the eleventh grade to the curriculum. Two teachers now give their entire time to high school work. The largest class in the history of the school graduated this year from the eleventh grade. The Betterment Association has helped greatly in making improvements about the campus and building. Chairs were bought by this organization to take the place of benches.

PRINCIPAL T. E. STORY, *Oak Hill High School*:

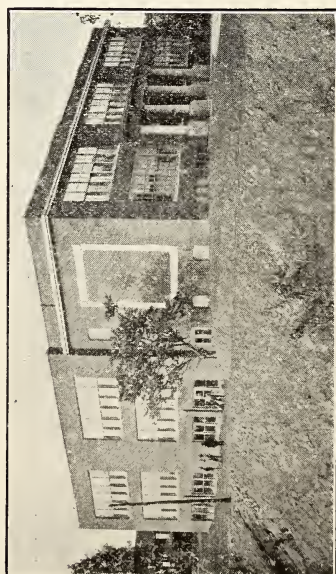

During the past year there has been most splendid coöperation on the part of every patron. Every one feels that this has been the best year in the history of the school. The teachers have all been reëlected and plans are being made

to add another teacher next year. During the last month the rooms and hallways on the first floor of our new building have all been finished and also the large auditorium on the second floor ceiled. To meet the bills for doing this work more than \$600 has been raised from the immediate community.

Caswell County

PRINCIPAL G. M. GUTHRIE, *Milton High School*:

The outlook for the future seems to be good. Many of the people in this part of the county are becoming more interested in the high school work, and plans are being discussed for a dormitory next fall. That will increase the enrollment and daily average attendance very much.

Catawba County

PRINCIPAL H. C. MILLER, *Startown Farm-Life School*:

The school district has voted 20 cents on the hundred dollars additional tax for a period of five years in order to make improvements. A modern barn has been erected at a cost of \$650; an addition to the dining-room costing \$300, and a domestic science sink at cost of \$15. A third full-time teacher has been added to the high school.

Cherokee County

SUPT. M. T. EDGERTON, *Andrews High School*:

We will enlarge our capacity in the high school building and put in a first-class equipment for home economics. We have secured an M.A. graduate of Winthrop College for this department. Our trustees raised all lady teachers' salaries by a bonus of \$60 payable at the end of the term. Our high school will greatly increase in number next term. We expect to put the school in the accredited class B, giving our high school teachers only six periods a day, 45 minutes, and limiting the number of units to each teacher to 5 in the requirements for graduation, etc. We had seven graduates this year, a majority of whom will enter college. We will add playground equipment with funds raised by entertainments. Our pupils bought \$8,240 worth of thrift stamps. Five bought the limit of \$1,000 each.

PRINCIPAL GEO. B. STRICKLAND, *Murphy High School*:

More real progress made in school work than any year previous.

Clay County

PRINCIPAL E. L. ADAMS, *Hayesville High School*:

During the last year a tax was voted upon by the entire Hayesville Township, which gives us twice the tax we received heretofore.

Cleveland County

PRINCIPAL N. M. LIVINGSTON, *Grover High School*:

One hundred and ninety-eight dollars was raised by school entertainments during the year. This has been used to pay on piano, put books in the library, and make some improvements about the school grounds. Few shade trees have been put out to beautify the grounds.

SUPT. I. C. GRIFFIN, *Shelby High School*:

Our school engaged in all war activities; the amount of war savings stamps purchased by the pupils was \$19.32 for each pupil enrolled. We increased our local tax 10 cents and voted \$18,000 for additional high school rooms.

Columbus County

PRINCIPAL C. U. WILLIAMS, *Chadbourn High School*:

We have equipped our school building with electric lights and installed good new stoves in all the rooms. A splendid reading-room has been provided with about fifteen of the best magazines and papers. A very good laboratory has been installed for the use of the physics class at a cost of about \$175.

PRINCIPAL C. R. SPENCER, *Whiteville High School*:

On June 25th at sunset, on the school lawn, a Service Flag, gift of the Literary Society, was presented to the high school. The same was accepted by the principal. On this flag are 55 stars, one of them a gold star in memory of Malcolm Lumsden, who died for his country. Of these, fifteen stand for officers in the service of our country, one for a Red Cross nurse, one for a young man in hospital corps.

Craven County

PRINCIPAL H. L. JOSLYN, *Craven County Farm-life School*:

An administration building has been erected, thus giving ample space for classrooms without infringing on dormitory rooms. Basement rooms of dormitory are used as laboratories. The dormitory has two compartments, one for boys and one for girls, separated by fireproof wall with no intercommunication.

PRINCIPAL G. Y. NEWTON, *Dover High School*:

The school children bought a band for the school. They have contributed to the Y. M. C. A. fund and to the Red Cross fund. The most noticeable thing of all, among the pupils, has been their activity in buying and selling war savings stamps and thrift stamps. We have four War Savings societies, and they bought about \$400 and sold about \$3,000 worth of stamps.

Currituck County

PRINCIPAL MRS. RUTH C. CHARLTON, *Moyock High School*:

The Sanitary League of the school, which is composed of the student-body, has been doing excellent work. They have erected on school grounds posts for volley-ball, purchased vaulting pole, purchased and had pictures framed, pictures for each of three class-rooms. The league has kept foodstuffs provided for domestic science classes, as there is no fund provided for this work. They have paid janitor services and taken care of incidental expenses. Bought a new library table and purchased additional books for the library. Have bought about \$7 worth of classics to be read out of school hours, and contributed five dollars for a new supplementary library but which cannot be recorded in report as it has not yet arrived. The Woman's Club has also

aided in keeping the playground in good condition and coöperating with school work. Private donations have been made to purchase new chairs for the auditorium and fifty dollars worth of chairs have been put in.

Dare County

PRINCIPAL JAMES E. HOLMES, *Manteo High School*:

The prospects for another year are very encouraging. More than twenty passed the seventh grade examination in Manteo school this spring, and the present prospect is that we will have at least forty in this high school next year.

Davidson County

SUPT. S. G. HASTY, *Churchland High School*:

A domestic science course has been arranged for next year. Plans have been formulated to have a girls' dormitory ready for use by the opening of the fall term. The dormitory is to be run on the club plan. I visited 33 public schools, practically all the large public schools in the county, and presented to students and teachers the matter of free tuition, course of instruction, advantages, etc., of coming to Churchland to school next year.

Davie County

PRINCIPAL A. H. FLOWERS, *Farmington High School*:

The Board of Education, on May 6, 1918, authorized the building committee to take down the old school building and use the material when possible in the new building as sub-flooring, etc. Movement to erect new building is on, and we expect to get it ready for school next October.

Duplin County

PRINCIPAL J. T. HATCHER, *Calypso High School*:

This school was made a State High School last year. Realizing that the present building was not sufficient, the district voted unanimously to issue bonds for a new building. The bonds were for \$16,000, but when the plan, which seemed to be the ideal one, was found the cost of the building was estimated at \$30,000. After a short campaign the difference of \$14,000 was raised by private subscription. The architect is now completing the plans, and work will soon begin on the new building. This building will be thoroughly up-to-date. It will be newly furnished throughout and will have a complete heating plant. The controlling idea with the men is that they are investing their money in their children.

PRINCIPAL W. T. BYRD, *Teachey State High School*:

During the school year 1917-18 we raised, by means of plays, entertainments, and box suppers, the amount of \$225. This sum we used to purchase necessary equipment and conveniences for the school, such as new lamps, large dictionary and holder, window shades, floor dressing, etc. We observed the 22d of February with appropriate patriotic exercises, and raised a large United States flag over the school building. On account of the constant growth of the school, we were compelled to add an additional teacher to the faculty,

fitting up the stage and using it as a temporary classroom. We find our building entirely inadequate for our present needs and we are already considering plans for enlarging it.

Durham County

PRINCIPAL ROY H. THOMAS, *Lowe's Grove Farm-life School*:

New dormitory completed at a cost of \$6,000. Community fair building completed at a cost of \$300. School reorganized by Federal Department of Agriculture, hence \$900 was received this year under Smith-Hughes Bill.

Edgecombe County

PRINCIPAL ROBERT K. HOKE, *Macclesfield High School*:

The course of the high school was raised to a full four-year course this year, and the graduates, whose names appear in this report, are the first to graduate from this school. The salary of the extra teacher is paid as follows: \$200 from county, state, and special tax, and \$200 by private donations, which was raised this year by a play, "Prairie Rose," by bazaar, and in other ways.

Our two literary societies—the Clay and O'Henry—have been very active during the year, having given programs to the public, etc. Joe Hoke, Wiley Means, and Hattie Carr, of the O'Henry Society, and Claude Crisp, of the Clay Society, won places on the triangular debating team of this school. Both teams won over Battleboro in the preliminary contest, held on March 29, 1918. Both teams represented the school in a creditable manner in the final contest for the Aycock Memorial Cup, April 11 and 12, 1918. The literary societies published the *Hustler*, a high school magazine in quarterly installments. The work was done on the mimeograph in Superintendent Howard's office. Joe Hoke won the debater's prize at county commencement which was held May 3d.

The Ladies Community Club has been very active during the year, having raised a large part of the school debt.

This school is the first and only school in this county to get 100 per cent of its enrollment owners of war savings stamps.

Franklin County

PRINCIPAL N. E. WRIGHT, *Bunn High School*:

During this year we have raised \$376.79 for the school. Part of this money supplemented the teachers' salaries. With the other we beautified the grounds and classrooms.

Gaston County

PRINCIPAL J. B. HENSON, *Dallas High School*:

On May 9, 1918, our community voted \$25,000 bonds for erection of a modern building.

PRINCIPAL M. LUTHER BARNES, *Mt. Holly High School*:

First year in new high school building, which contains five classrooms, library and reading-room, office, domestic science and music room, and an auditorium; seating capacity, 500.

The school has three active literary societies. Septic tanks have been installed. Betterment Association donated a set of Southern Literature to the school. Junior Red Cross organized. All the high school students have purchased either thrift stamps or war savings stamps. The school has given liberally to every patriotic cause. Thrift, economy, and patriotism have been taught and emphasized. War recipes have been worked out in the Domestic Science Department. The school's service flag has forty-five stars.

Graham County

PRINCIPAL MISS ETHEL WALKER, *Robbinsville High School*:

A Debating Society, composed of both boys and girls, was organized at the first of the year. Very good results were obtained. Amount of war savings and thrift stamps bought by school, \$200.25.

Granville County

PRINCIPAL J. RALPH WEAVER, *Knap of Reeds High School*:

During this year we have added much to our school's equipment. In the first part of the year 1917 we had no house, except a makeshift place. The community got together and voted \$6,000 worth of bonds, after which work was begun in the early summer on a brick veneer building, which was completed in November and ready for occupation. The total cost of the building alone was \$6,375, while the furnishing of the same was quite an item. The single desks, auditorium seats, piano, library books, etc., brought the total up to near \$8,000.

On the whole, the school has made some surprising advancements in material and intellectual achievements, and at the same time we have shown ourselves in some small degree a patriotic factor, aiding the Allies and our boys at home by organizing thrift and war savings societies.

PRINCIPAL H. W. RINKER, *Stovall High School*:

We have earned about \$150 by entertainments, including commencement exercises. This goes toward paying for the school piano.

Guilford County

SUPT. E. J. COLTRANE, *Jamestown High School*:

Some very important changes have been made in the organization of our high school. The most significant change has been the addition of a new teacher of science, who gives her entire time to this work. All the courses in science are now upon a sound basis. The laboratory facilities have been increased, regular laboratory periods scheduled, and the pupils required to do the laboratory work and keep accurate note-books. Previous to this year we had only five teachers; now we have six teachers for high-school work.

Just this year the Jamestown High School qualified for Federal aid under the provisions of the Smith-Hughes Act. Half of the salary of the teacher of agriculture is now paid from Federal funds. In addition to this, financially we are benefited by having strict Federal supervision also.

PRINCIPAL V. L. WYANT, *Monticello High School*:

This has been a very successful year in the history of Monticello school. We have offered a better and fuller course of study, based on better texts. We have a two hundred and fifty dollar equipment for home economics. This is the only high school in the county that owns the building in which the principal lives. This building was erected last fall at a cost of \$1,300.

Halifax County

PRINCIPAL ROBEBY W. ADAMS, *Aurelian Springs High School*:

We raised part of the money for painting the building and expect to raise remainder and get the building painted before the opening of next session.

Harnett County

PRINCIPAL FRANK HARE, *Lillington High School*:

Built one dormitory valued at \$5,000; screened domestic science room; bought books valued at \$15; bought two cows for farm; graded campus; added \$5 equipment in domestic science department.

Haywood County

PRINCIPAL CHAS. B. HAWKINS, *Clyde High School*:

There has been a new building erected. The school has voted an additional special tax. A building is needed for the principal, also a dormitory for the boarding students.

Hertford County

PRINCIPAL C. R. HINSHAW, *Ahoskie High School*:

Five students from the eleventh grade were graduated, the first class in the history of the school to complete the eleventh grade.

Hoke County

SUPT. J. T. JEROME, *Raeford Public High School*:

A brick high school building, costing about forty thousand dollars and equipped with all modern conveniences, has been built this year. We moved in during the month of April. The grounds have been laid off for walks and playground. An appropriation has been made for play apparatus. Our boys and girls have already bought over \$5,000 in war savings stamps. They all belong to the Red Cross. The high school owns a Liberty Bond of \$100. We have two literary societies in active operation. Over 500 volumes were recently added to the high school library. Included in the lot were good dictionaries and reference books. An active parent-teacher club organized this year is a great help to the school. They take charge of many outside activities of the school, such as war gardens, Red Cross, library, war savings societies, etc.

Hyde County

PRINCIPAL J. N. DUNCAN, *Swan Quarter High School*:

Two thrift societies have been organized and the practice of thrift encouraged. A forty-foot flag-pole has been erected. We have almost paid for three fifty-dollar Liberty Bonds. We have paid sixty-five dollars on our piano debt.

Iredell County

PRINCIPAL R. H. LANKFORD, *Harmony High School*:

There are departments of agriculture and home economics maintained by joint-support of county and State, and these have added largely to interest and efficiency of the school work.

PRINCIPAL MISS NELLA M. ROWE, *Troutman High School*:

Literary society organized in each room; one public meeting of each held during term; patrons much interested in this work. Parent-teachers' association organized. Canning club organized. Patriotic meetings held at regular intervals. Large war savings society organized. Magazines secured for high school. Attendance improved by the giving of merit cards monthly. Discipline much improved.

Jones County

PRINCIPAL JAMES ELDRIDGE, *Trenton High School*:

Have paid \$75 on piano account. Put new tin roof on belfry of main building. Added some new patent desks. Made repairs to doors and windows. Added new heaters. Movement now on foot for increasing special taxes for the school district.

Lee County

PRINCIPAL D. W. MADDOX, *Jonesboro High School*:

The Betterment Association raised \$130 during the school year, about \$115 of which has been for general classroom equipment. The balance is to be used as part payment on science apparatus.

PRINCIPAL G. O. ROGERS, *Sanford High School*:

The very best equipment for teaching domestic science has been secured. This equipment consists of six desks, twelve electric hot plates, an electric range, and all necessary material for teaching the subject. Two hundred and seventeen dollars have been made to establish a high school library. The book rental system has been installed. Some material for playgrounds, consisting of necessary basketball equipment, has been secured.

Lincoln County

PRINCIPAL VICTOR V. ADERHOLDT, *Denver High School*:

We have raised approximately \$200 this year through the medium of plays, box-suppers, etc. Our aim is to have a building for use as dormitory for boarding students for another year.

Macon County

PRINCIPAL H. F. LATSHAW, *Iotta High School*:

Finished paying a debt of \$68.31 on the high school seats. Two typewriters have been bought for use in the commercial courses; a \$15 supplementary library was secured through the aid of the N. C. Library Commission; \$546.93 was raised by donations and entertainments. An educational rally was held March 15, and \$4,000 was raised for the building of a dormitory. We plan to have the dormitory finished in time for the school next year.

Martin County

PRINCIPAL E. E. BUNDY, *Williamston High School*:

Since the last annual report we have completed a new building which has cost approximately \$25,000. We have made arrangements to add chemistry and domestic science to our course of study for the coming year, and we will also have three full-time teachers. We now have 205 volumes in the library, including an encyclopedia and a Webster's Unabridged Dictionary. We have also improved the athletic equipment.

McDowell County

PRINCIPAL H. B. CRAVEN, *Nebo High School*:

School bond election carried for \$20,000 high school building, May 8, by a vote of 44 to 4; also additional local tax for support of schools carried.

SUPT. S. L. SHEEP, *Marion High School*:

The school was medically inspected under the plan of the State Board of Health. Dr. G. S. Kirby did the examining. Notice of defects and diseases were sent to parents, and duplicates are on file in the school office.

Mecklenburg County

PRINCIPAL W. H. WARD, *Matthews High School*:

Our school was successful in winning first prize for best exhibit at Charlotte fair. Carrie Vernon Renfrow, a ten-year-old girl, won sweepstakes prize for our school. We have two good literary societies in our high school. They have purchased \$38 worth of books to begin a library.

Practically every student in school is the owner of a thrift or war savings stamp. Four are owners of Liberty Bonds, etc.

PRINCIPAL MARY M. PRICE, *Paw Creek High School*:

Twelve thousand dollars worth of bonds have been voted and a twenty-thousand-dollar building will soon be begun.

Mitchell County

PRINCIPAL D. M. STALLINGS, *Spruce Pine High School*:

A modern brick veneer school building was completed during the summer of 1917. This is said to be the best and most modern school building in the counties of Mitchell, Avery, and Yancey. The present value, including equipment, is \$12,000. The people have worked hard for this building and are very proud of it.

Moore County

PRINCIPAL C. G. CREDLE, *Carthage Graded School*:

We have secured \$2,500 with which to install an up-to-date heating plant. The work will be done during the summer.

Northampton County

PRINCIPAL R. S. PROCTOR, *Rich Square High School*:

Twenty-five thousand dollars voted for new school building which we hope to have ready early this fall. Several acres have been added to our school grounds. This gives us room to play and a better site for the building. A boys' dormitory will be opened soon.

PRINCIPAL W. D. BARBEE, *Seaboard High School*:

Since last report we have built and furnished a 25-room, \$8,000 dormitory for boys and girls. We have increased our teaching force. Thirty-three and one-third per cent of our entire student-body last year had perfect attendance. Every student that was enrolled bought, through the school, a saving stamp. The school children and teachers subscribed to \$2,000 worth of stamps. The local Betterment Association has put in the school between four and five hundred dollars for internal improvements. The school has been a center through which we have had three big patriotic meetings, and at these meetings approximately one hundred thousand dollars have been invested in savings stamps, Red Cross, and Liberty Bonds.

Orange County

ACTING PRINCIPAL LETTIE GLASS, *Chapel Hill High School*:

Since the last annual report the school has completed and properly equipped a physics laboratory. The Morrison Literary Society was organized during the year with a membership from seventh grade through high school. Two war savings societies were organized and had regular meetings; a Junior Red Cross with a membership of over one hundred met once a week and did excellent work. The high school boys made boxes for sending away goods for the Red Cross; war gardens were planted by a number of the children, and they followed a systematic plan of work. Nearly all children in school bought thrift stamps and a great many had war savings stamps and Liberty Bonds. Over thirty of our boys are in service—either in the army or navy. The entire high school has manifested a keen interest throughout the year in athletics and organized play.

PRINCIPAL FRED A. McNEER, *Hillsboro High School*:

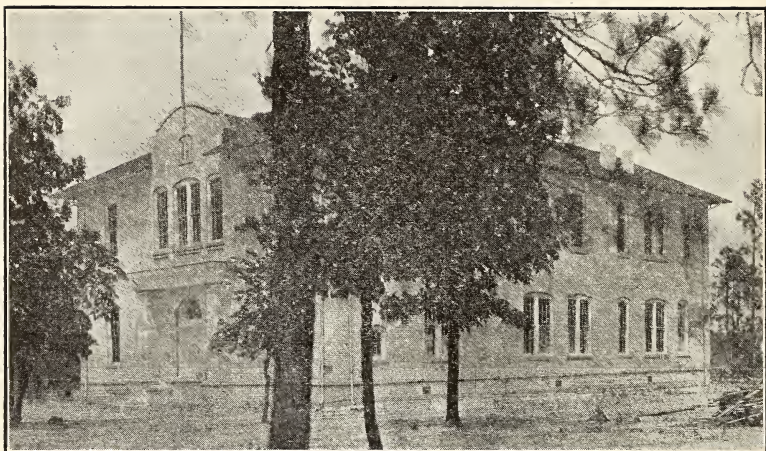

During 1917-18 Hillsboro school added electric lights to its equipment and secured a third high school teacher. Through the efforts of teachers and pupils a piano had been bought at a cost of \$350. In order to make monthly payments on the piano the pupils have been doing a good part of the janitor's work throughout the year.

The school has taken an active part in war work. We bought a \$100-bond of the second liberty loan and presented it to the army Y. W. C. A. This bond was paid for by contributions from the children.

Pitt County

PRINCIPAL W. G. COLTRANE, *Grifton State High School*:

Has been made a State High School. Home economics has been introduced and this department has been thoroughly equipped at a cost of \$500. A dormi-

tory has been built and furnished. Thirteen hundred dollars was donated by citizens of the town and community. Betterment Association has purchased shades and teachers' desks for the recitation rooms at a cost of \$220. The association paid off a \$300 indebtedness on the dormitory furniture.

Polk County

PRINCIPAL E. W. S. COBB, *Stearns High School*:

The school has had a good year, although the enrollment is slightly smaller than last year. This is due to a goodly number of our boys volunteering and going into the service of the U. S. A.

The school has a Junior Red Cross organization with 46 members, and has bought Liberty Bonds, war certificates, thrift stamps, etc.

There are 41 members in the Agricultural Club. The school has a live Woman's Betterment organization, which meets twice a month and has in charge general matters of improvement of school building and grounds and that of the community. This organization has raised something more than \$100 this year. The woodwork inside the school building has been stained, window shades put up to the windows, a curtain and scenery have been placed on stage of auditorium, and considerable work has been done on the grounds. The school has given several entertainments during the year, the proceeds of which amounted to \$151 and has been expended on improvements.

Richmond County

PRINCIPAL O. G. REYNOLDS, *Ellerbe High School*:

We have voted since last year \$12,000 worth of bonds for the purpose of erecting a brick schoolhouse, which we hope to have built this year.

PRINCIPAL T. L. WILLIAMS, *Hoffman High School*:

We have moved into a beautiful new brick school building containing six classrooms, auditorium, office, teachers' rest-room, two play-rooms. During the year we have made about \$75 with which we bought two basket-balls, oiled the floors, spent \$20 for pictures, bought three good maps.

Robeson County

PRINCIPAL E. S. BENNETT, *Rowland High School*:

The school has a Junior Red Cross; raised over \$50 for Red Cross work. Much work was done by girls in sewing-room. Raised by entertainments about \$225 to supplement funds. Fifty new books added to library. Five hundred and thirty-six dollars raised by private donations to pay an old school debt. Organized active poultry, pig, corn, potato, and canning clubs.

Sampson County

PRINCIPAL G. C. BUCK, *Salemburg Public High School*:

Stage curtains and window shades and 25 new patent single desks have been put in the school since last report. A dormitory is now being built and will be ready for occupancy by the opening in the fall. The school grounds have been improved.

Scotland County

PRINCIPAL J. A. CALDWELL, *Laurinburg High School*:

During the past year we have organized a scout patrol—a military company which is being thoroughly drilled and taught the general principles of combat and modern warfare. The literary societies have been remodeled and strengthened. The teachers' salaries have been raised from \$20 to \$30 per month. Athletics have been established on a good basis. An additional special tax of 15 cents was secured by popular vote. We have raised our requirements for high school teachers. The course of study will be revised and made more elastic for the coming year. We have begun to plan for a new and separate high school building to contain manual training, domestic science, and commercial courses. The people are willing, so I find.

Surry County

PRINCIPAL R. A. SULLIVAN, *White Plains High School*:

Community Service Day and Arbor Day observed. Grounds cleaned, improvements made, dinner served by Domestic Science class, program rendered. Community working; fifty silver-leaf maples planted; cornerstone placed in building; top-soil hauled for driveway.

Agriculture Club organized. Home-guard War Savings Society organized February 21, 1918. Several hundred stamps sold through the society. School gardens planted on school grounds by members of the Agriculture class. High school building painted.

Swain County

PRINCIPAL CHARLOTTE YOUNG, *Almond High School*:

A farm of 65 acres and a six-room house have been bought by the County Board of Education, pending the action of the Loan Fund Committee, \$3,000 being the amount asked for the farm and home, and \$200 set aside to commence equipping the home.

A good, nearly new piano was bought, the original price being \$350; \$200 was the price paid, and this was raised from entertainments and suppers. There is a fine prospect for a large attendance and a good quality of work this year. A class of about twenty have completed the seventh grade and are ready for high school.

Transylvania County

PRINCIPAL N. L. PONDER, *Penrose High School*:

Since last year's report was made this district has built a new schoolhouse. It is very satisfactory in every way—convenient, comfortable. The cost was made by voting bonds. The ladies of the community have furnished the classrooms with blackboards of the hyloplate type. They, too, raised money to beautify the grounds and to install a sanitary drinking fountain.

Vance County

PRINCIPAL G. A. CALE, *Middleburg High School*:

New modern two-story brick dormitory erected; steam heat and electric lights installed; ninety-foot well bored; grounds beautified with plants, trees, shrubs, and flowers; maps, blackboards, and window shades bought; domestic science and art equipment installed.

Warren County

PRINCIPAL H. A. NANNEY, *Macon High School*:

A sixteen-room dormitory is practically complete and will be ready for boarding pupils at the opening next fall. The principal has been elected for twelve months and will give his entire time to the work. A course in practical agriculture and one in domestic science will be begun this fall.

PRINCIPAL W. H. FLEMING, *Norlina High School*:

Electric lights installed in school building; school grounds improved; sixty shade trees planted; furnishings purchased for auditorium stage; separate room equipped as reading-room and library; new piano purchased; encyclopedia and *Historians' History of the World* purchased; playground improved by additional basket ball and tennis court.

PART TWO—CITY AND LOCAL HIGH SCHOOLS

GENERAL COMMENT

City and Local High Schools Not Operated Under Public High School Law. We have in North Carolina three types of public schools doing high school work: (1) State high schools, (2) city high schools, and (3) local high schools. An account of the progress of the State high schools, that is, those operated under the public high school law and receiving State aid, is to be found in Part One of this report. The city high school is organized as a part of the city public school system, which is operated, as a rule, under a special charter, and is, therefore, independent of the operation of the public high school law, unless approved as a county high school under section 6 of this law. Local high schools, or high school departments, are those operated under the general school law as a part of the county system, and not under special charter, and that do not receive State aid. Local and city high schools are not required by law to make to the State Superintendent of Public Instruction separate financial and statistical reports, as the State high schools are, and so it is impossible to give in detail the complete and accurate information regarding the operation of this part of our public high school system that is given for the State high schools which receive State aid.

Other Information.—The main facts regarding the city and local high schools will be found in Tables IV and V, Part Two, of this report. For the progress report during the past year the reader is referred to the abstracts from the superintendents' reports printed below. Of course, this statement of the past year's progress is incomplete, since many of the superintendents failed to report improvements. The list of graduates from the city high schools offering four-year courses are given in Part Three of this report.

EXTRACTS FROM REPORTS OF CITY SUPERINTENDENTS' AND LOCAL HIGH SCHOOL PRINCIPALS

SUPT. B. F. HASSELL, *Asheboro High School*:

Two high school rooms and two music rooms added to building; chemistry and German added to course of study; one high school teacher has been added to the faculty.

PRINCIPAL BRUCE H. LEWIS, *Brevard Graded School*:

Brevard voted \$2,500 on May 12th for new high school building. Plans are about ready and contract to be given at an early date. Brevard is the logical point in Transylvania County for a State High School. Central point and abundant accommodations. Good place to serve this whole county.

PRINCIPAL J. W. SCROGGS, *Cameron Graded School*:

We raised about \$150 for school improvements; planted a hedge around the school yard, and held two patriotic rallies in pushing sale of Liberty Bonds and war savings stamps.

PRINCIPAL E. L. CARTER, *Catawba Graded School*:

We have given several entertainments this year for the benefit of improving the school grounds and house. In all, about \$100 has been made and spent. We hope by another year to have manual training.

SUPT. R. M. GRAY, *Dunn High School*:

Made \$35 for playground improvements. Raised over \$100 for Red Cross. Organized Junior Red Cross and made garments for soldiers and Belgians. Organized War Savings Stamps Club.

SUPT. M. L. WRIGHT, *Edenton High School*:

Since the last annual report was made we have added one teacher to our high school faculty. We have lengthened our high school periods to forty-five minutes. We have been put on the list of Southern Accredited High Schools.

SUPT. W. S. SNIPES, *Fayetteville High School*:

Our commercial course has meant more to our girls who could not go away to school than any other department. These girls are now making good salaries. We do not have a regular laboratory for science, but a good deal of apparatus is made by teacher and pupils and much practical work done.

SUPT. R. BENTON, *Franklinton High School*:

This is the first year we have attempted to give a full four-year high school course. The work therefore is not uniform. French is given for first time; hence two classes taking same work in this study. We offer one course without Latin provided student takes French.

SUPT. HORACE SISK, *Lenoir High School*:

School has had a very fine year's work. We graduated nearly twice as many as in any previous year and will nearly double this number next year. We did a lot of war work. Had Thrift societies in all the grades and also the Junior Red Cross. We also continued our work in measurement of results.

SUPT. O. V. WOOSLEY, *Lexington High School*:

The sewing-room has been equipped. One hundred and fifty books have been added to the library.

SUPT. W. R. MILLS, *Louisburg High School*:

Up to this time we have tried to offer only one course leading to graduation, working on the theory that a few things well done would be worth more than a larger number poorly done. We have been able to send nearly all our graduates to college for a few years, and the majority of them have completed a college course.

PRINCIPAL MISS NANNIE E. PIGG, *Mars High High School*:

Bonds have been issued to the amount of \$5,500 and have been sold for the purpose of erecting a new modern building. The contract has been made with a Mr. Campbell of New Bern to complete the building in time for school

to begin next fall. The school has raised by entertainments \$65 for equipping the new building. We have on hand about fifty dollars now. We need badly an artesian well which will cost about \$350, and an electric light plant, which will cost \$350 also.

SUPT. H. H. McLEAN, *Maxton High School*:

The course of study for the fourth year was added. Also a system of records installed. An effort was made to bring the requirements of the course of study more nearly up to the standard for the State.

SUPT. A. C. KERLEY, *Morganton High School*:

The class of 1918 was the largest in the history of the school, having 21 members. More than half of these will go to college. One member, Andrew T. Smith, attended the Morganton school for eleven years and was never tardy in his life and was never absent but two or three days during all this time. This was caused by sickness.

The Graded School auditorium has needed stage scenery for a number of years and professional painters of this work have estimated the cost from \$300 to \$400. A member of our graduating class, Andrew Smith, painted a full set of stage scenery which is unusually good, and saved a nice little amount of money for the school.

SUPT. H. B. SMITH, *New Bern High School*:

We now have a course in military training.

SUPT. W. G. GASTON, *North Wilkesboro High School*:

The literary society work has been continued and improved. The students have taken an active interest in this important phase of school life. North Wilkesboro won both debates in their triangular contests with Lexington and Wilkesboro.

These societies became War Savings societies, also, in February, and during the last three months these live organizations have bought and sold over twelve thousand dollars worth of stamps. Considerable money was raised for the Red Cross, and about sixty dollars for the Army Y. M. C. A. War gardens in the various homes have been encouraged. The school has been equipped in practically all of the rooms with splendid new window shades. The school grounds have been graded by the town, and several adjoining lots have been purchased, adding greatly to the general appearance of school.

PRINCIPAL JAS. W. NORMAN, *Plymouth High School*:

Our school won the prize for Short Story Contest offered by the State Normal College. The prize was won by Miss Marion Owens of the ninth grade.

SUPT. R. D. JENKINS, *Scotland Neck Graded School*:

Junior Red Cross organized (25 cents contributed for each pupil enrolled). War Savings Society organized (seventy-eight members). Seven hundred and eight dollars invested in war and thrift stamps.

SUPT. J. E. REDFERN, *Spencer City Schools:*

The school improvements for 1917-18 were as follows: 1,000 school bulletins were issued containing a graded curriculum; \$115 was raised for school-ground apparatus; \$169 stage curtain purchased; a parent-teachers' association organized; \$30 worth of maps bought for school; a Dramatic Club organized to give plays to make money for school improvements; one Glee Club organized to develop the vocal talent of students.

An additional tax of 20 cents on one hundred dollars of property and 60 cents on the poll was voted by means of which we increased the teachers' salaries and added four teachers to the faculty.

PRINCIPAL JOHN W. HEATH, *Zara High School:*

This school made provision for eleven grades by voting additional tax on March 9, 1918. There will be two teachers in the high school work next term. A teacherage or dormitory will be built during vacation.
